11 To note repairs authorised at Old Road and Ryedale View play areas

09 May 2014

OLD ROAD PLAY AREA

TODDLER AREA

- Remove wooden frame surrounding wetpour surfaces and fill the gap with good quality soil and turf ensuring a compact join in order that the grass can bed into the wetpour
- Eliminate trip hazard between entrance gate and the Playdale Multiplay Unit
- Repair fencing where fence panels pulling away from post
- Replace anti wrap fixing on Playdale Cradle Swing
- Replace all missing bolt caps on Playdale Multiplay Unit and benches
- Playdale Multiplay Unit - Tighten all loose fixings: bolts; roof supports and step

MAIN RECREATION AREA

- Richter Cantilever Swing – Sand down the underface of the beam where signs of damage are showing from impact with the tyre seat
- Ensure all fixings are secure
- Richter Junior Swing – Remove lengths of protruding bolts
- Fill the gap surrounding the wetpour surface with good quality compacted soil to eliminate trip hazards
- Playdale Climber – Ensure all fixings are secure
- Remove weeds and grass from bark pit
- Richter climbing bars – remove length of protruding bolt on edging
- Richter Rotating Spring Tyres – Replace worn matting with new and remove trip hazards
- Replace 3 tyres

- Playdale Trim Trail – Ensure all fixings are secure
- Remove 2 links on chain of parallel bars
- Tighten eyebolt
- Replace screw fixings on new step posts with bolts and playdale caps
- Seating – Replace missing bolt at rear of bench seat
- Ensure bin is securely installed

SKATEPARK

- Replace all missing rivets on all apparatus
- Lift central panel of half pipe to establish and remove cause of movement and secure back in place
- Replace missing fence rails
- Clear debris from man-made bike ramp at edge of skatepark
- Remove trip hazards from the perimeter of the skatepark
- Fill in areas in front of the benches to same level as skatepark surface
- Gate – requires rubber stopper to create a gap of 12mm

RYEDALE VIEW PLAY AREA

- Spinakker – tighten loose bearing
- Kompan Multi unit – Tighten foot hold
- Replace missing cap
- Kompan Junior Multiplay Unit – replace fixings in sliding tube
- Kompan Sunflower Hammock Swing – tighten flower and replace cap
- Kompan Toddler Multiplay unit – replace caps in roof
- Tighten panel at spiral post
- Ensure all fixings are secure
- Remove all trip hazards

14 May 2014 Order 05/14/04

SEAT AT NORTHERN EDGE OF OLD ROAD PLAY AREA

- Remove existing rotten seat slat
- Supply and fit 2 x tanalised replacement slats
- Rub/sand down all slat
- Treat with Sadolins Extra Durable woodstain (Jacobean Walnut or closest matching)

SEATS ON EASTERN EDGE 2 NO.

SEATS IN SKATE PARK AREA 2 NO.

PICNIC TABLES IN PLAY AREA 2 NO.

- Rub/sand down all slats
- Treat with Sadolins Extra Durable woodstain (Jacobean Walnut or closest matching)

PICNIC TABLE IN TODDLER PLAY AREA

- Remove and replace burnt slats
- Rub/sand down all slats
- Treat with Sadolins Extra Durable woodstain (Jacobean Walnut or closest matching)

14 To consider additional grant funding opportunities

Julia Mulligan announces further £250k grant funding to promote community safety

North Yorkshire's Police and Crime Commissioner, Julia Mulligan, has announced that a new £250k pot of grant funding will be available to charities and community groups who want to run community safety project in their area.

The decision to make new funding available follows the success of the previous year's funding, which has been helped fund 29 projects across the county benefitting thousands of individuals.

Applicants have until **7 July** to apply for the first of four rounds of funding this financial year and until 1 September to apply for the second round.

The Community Fund was launched in May last year (2013) to enable local organisations, groups or individuals to fund a new community safety project or scheme in their area.

Grants of between £500 and £20,000 are awarded for specific projects including:

- Extra-curricular or 'diversionary' activities for children and young people
- Promoting safety and reducing the fear of crime and anti-social behaviour
- Support for victims
- Improving community cohesion
- Preventing crime and anti-social behaviour
- Supporting the purchase of specific pieces of equipment

Julia Mulligan said: "From rehabilitating offenders to creating beneficial activities for young people in areas affected by antisocial behaviour, the Community Fund is making a tangible difference in communities across North Yorkshire. It is empowering local people to identify a community safety issue in their area, propose a solution and then receive the financial backing to see it through to fruition.

"I want to make it as easy as possible for people to apply for this money and work with them to create high-quality bids that have measurable benefits and stand a good chance of success in their applications. You can call the Community Fund 'helpline' for guidance on what's likely to be supported, as well as practical advice on how to submit your application. Just call 101 and ask for Community Fund."

Funding will be released on a quarterly basis. Applications will be judged on merit, rather than on a geographical or 'first come, first served' basis.

Quarter	Quarter time period	Submission deadline	Panel decision communicated to applicants
1	April – June 2014	7 July 2014	1 August 2014
2	July – Sept 2014	1 September 2014	26 September 2014
3	Oct – Dec 2014	24 November 2014	19 December 2014
4	Jan – March 2015	23 February 2015	20 March 2015
