116	102925	12	Smith of Derby	Church Clock Service Agreement from 01.04.2015 - :	547.20
TOTAL					3,271.29

7. Streetlight upgrades

a. To receive a report on progress of the street light upgrades

b. To consider and agree the supplementary cost of £800 to purchase third party warranty in respect of the lanterns and lighting columns(cover from Barclays)to cover the total value of the order should Advanced LEDs cease trading

Regarding the third party warranty: we can't get a prospective price from Barclays, who underwrite our own warranty as a third party, they will only give a price based on an actual order/contract. However, from experience, we know that for a contract of this value the third party warranty cover would be no more than £800. If it did amount to more than this we would be willing to pick up the rest of the bill.

Should advanced leds ltd cease trading for whatever reason, Barclays would become responsible for any warranty claim within the warranty period. I've attached our warranty documentation which outlines what this would cover. Barclays would cover the repair or replacement costs of any lantern failure during this period.

Chris Castle, Business Development Manager

8. To consider information in respect of temporary vehicle activated signs(VAS) that display a 30 or 40mph speed limit and consider and agree an appropriate response

Dear Clerk of

**CROFT/CONSTABLE BURTON/BAINBRIDGE/CARPERBY (RICHMONDSHIRE)
TOPCLIFFE/LEEMING VILLAGE/DALTON/ROMANBY (HAMBLETON)
EASTFIELD/HUNMANBY/SNAINTON/CASTLETON (SCARBOROUGH)
RILLINGTON/WARTHILL/WOMBLETON/KIRKBYMOORSIDE (RYEDALE)
HORTON/EMBSAY/LONG PRESTON/BURTON (CRAVEN)
TOCKWITH/BURTON LEONARD/FARNHAM/RIPON (HARROGATE)
HAMBLETON/LITTLE SMEATON/BEAL/MONK FRYSTON (SELBY)**

Temporary vehicle activated signs that display a 30 or 40mph speed limit reminder are currently being deployed in a number of communities across North Yorkshire. Each of these participants have at least one sign deployed in their village/town three times over the course of twelve months.

Following the success of the 'initial phase' of this initiative (which ended in September 2014) council members approved an official four year roll out period. Additional stock has been purchased by the County Council and additional communities are now being offered the opportunity to participate in the roll out. Your community has been selected to participate if you are willing to pay for the additional costs incurred. These costs cover the installation of sockets for the signs, rotation and officer time. The solar powered vehicle activated signs cost approximately £2500 each and have been paid for and will remain in the ownership of North Yorkshire County Council.

Communities that have previously raised speeding concerns through the Speed Management Protocol (but where no further action was required after the speed survey was taken) were entered in a draw and selected at random by members. The communities were ranked by district so they can be offered a sign in the order they were drawn. If sites drawn first do not wish to participate or are unable to meet the costs involved the sign(s) will then be offered to the next community on the ranked list. This process will continue until the signs are fully utilised. A maximum of two signs are available per community.

You have received this email because you are the next site on the ranked list to be offered participation. Some of the sites above you have taken up the offer and some have declined. So far over 20 communities are participating or are willing to participate in the scheme.

To assist you I have attached a detailed evaluation report of the 'initial phase' that also sets out all the costs involved for future involvement. After you have digested this information please let me know as soon as possible if you are interested or not? If you are interested and willing to pay the costs involved a site visit/meeting must be arranged to agree the sign(s) location(s) and the process involved.

If you have any questions at all before you commit to this **four year scheme** just let me know and I will respond directly to you.

I have also attached the results of the random draw to show your ranking and a detailed drawing of the sign on offer.

The costs can be spread out over four years if you wish and the payments would be interest free.

I look forward to your reply and answering any questions you may have about the process involved.

Regards

Darren Griffiths
