To:'Lisa Bolland' <town.clerk@kirkbymoorsidetowncouncil.gov.uk>

Hi Lisa,

After having a look at the details you have sent, this doesn't look like something we would do.

We would build 'roughly' to these specifications:

The cost to build a half basketball court area 16m x 15m inc run off, if done properly – i.e. 150mm of Type 3 Stone, 2 layers of porous macadam, concrete edgings, chainlink fencing around to 2.75m high on angle iron posts with 1no single gate, all spoil from assumed grass excavation to stay on site – plus colour spray and line – and installation of an in ground basketball goal.

This would cost approximately £18,500 + VAT

Obviously we can do a bit smaller to tailor it to your needs but it would still be substantially over the budgets laid out in the letter attached.

If this is still of interest, we can look at it a bit closer for you.

Many thanks
