Dear Lisa Bolland,

Project name / Address: Manor Vale woodland, Kirkbymoorside

Thank you for the information regarding the tree assessments, please refer to the attached documents for further information.

Option 1 – Detailed Internal Assessment of tree.

Undertake a Level 3* ground based risk assessment. Assess the internal condition of the tree using a range of decay detection equipment such as a Stress wave timer, Thermal imaging, Sonic & Electrical Tomography to understand the internal condition of the tree to inform their future management.

COST £315.00+Vat

If you require any information, please feel free to contact me.
