Housing Developments

Kirkbymoorside is losing out on the levies which can be got by leaving more houses.

Malton, Pocklington & Helmsley town councils must be rolling in money from the new off houses been built.

The development on Westfields looks as though this will eventually go ahead even though it is in the wrong place.

The development off Swine Leth Lane will be a good place to start and could continue as far as Helderholme, beyond the Ambulance Station, there is a very large field there which the owner has been trying for years to get planning permission, without success. (no back landers).

no mention in the G & H about Wandsfield.

I have written on more than one occasion to Ryedale to get the hedges tied up on the side of the A140, but they are useless.

There needs to be some positive action done about parking especially the top end of old road, its down to single lane at times. If money can be found for the effort what has been done at the roundabout and Lungs Lane. (a poor job). Money should be available to improve parking at Kirkbymoorside.

If people lived where they worked this would help the problem.

If there ever is any chance of the development to the east of K.M.S and extension to the sports field should be included, which is badly needed and draining.
