Kirkbymoorside Town Council

Re Ryedale Plan

Dear Councillors,

Further to the issues that I raised at the recent Town Meeting I would like to understand better the Council's view on the suitability of site 156 for housing. Specifically I would like to have answers to the following two questions:

1. What is it about site 156 that makes it one of the councils 3 preferred sites for housing development over and above other sites?
2. What is it about site 10 that makes that makes it unsuitable for residential development, and specifically how would its' development have a 'significant detrimental impact on the sportsfield'?

I plan to attend the Town Council meeting on May 21<sup>st</sup>.

Yours sincerely
