16 December 2020

Dear Councillors,

Ryedale Cycle Forum are delighted that Kirkbymoorside Town Council have received this AJ1 Road Safety grant for our joint project. The Terms of the Grant Agreement, which you have attached for us to see, seem fair and sensible, we are happy for Kirkbymoorside Town Council to accept them.

We note that, since the application was made, NYCC Highways have confirmed that they cannot assist with design drawings or costing advice for this, or any project with where full installation costs are not yet secured. Of course, we cannot secure match funding for installation without such advice, so we will have to pay for a Chartered Surveyor for the design drawings and costing advice, and within the standard NYCC protocol and standards. We are pleased to say that GGP Consult have said they are happy to work with Ryedale Cycle Forum and Parish/Town Councils on schemes such as this. They have already provided a quote, giving a cost per metre, which you have a copy of.

We look forward to working with you.

Kind regards,

Helen Gundry,

Ryedale Cycle Forum
