c. To authorise payment of £176.01 to Scarborough and Ryedale Carers Resource from the remaining £685.78 held for the Kirkby Community Fridge

Please find following the summary of expenditure by Scarborough and Ryedlae Carers Resource for Kirkbymoorside Community Fridge. There is an over spend of £176.01 could we apply for the this amount please to be sent via cheque to Scarborough and Ryedale Carers Resource. The Fridge have applied for a bank account and I am meeting with the committee tomorrow night so I can get an update on there bank account for you for future purchase / expenditure as they will be managing it from her. Please can you also confirm the total amount they have left that you are holding for them after the £176.01 is deducted?

Sarah Cockburn

- £176.01 to be paid to Scarborough & Ryedale Carers Resource (**pending**)

= **£409.77** balance remaining (held by Kirkbymoorside Town Council)

8. To receive information from North Yorkshire Police Traffic Bureau in response to concerns about speeding on West End and Westfields

Speed Concern – West End/West Fields, Kirbymoorside (Ref: RY2011370)

I have been made aware of your call to North Yorkshire Police seeking an update with regards to the above speed concern. I can confirm that this matter has been recorded and that West End/West Fields is currently subject to investigation. Monitoring at this location using an automatic speed data logging device has already been requested. This will record for a minimum of 7 days, 24 hours a day. This data, together with other available relevant information, will then be analysed by the Road Safety Task Group and a decision made on how best to proceed in enforcing the existing speed limit of this road.

Please note that due to the on-going COVID-19 situation, the deployment of these speed data logging devices was temporarily placed on hold in line with government health and safety guidance. This has created a backlog of requests for these devices. As such our investigations in to this location may take a little longer than usual.

Rest assured your concerns are being taken very seriously. Our investigations will be completed as soon as it is possible to do so safely and in line with current government health and safety advice.

As soon as an outcome has been reached, we will update you of the result using the contact details provided.

I trust this information reassures you of our commitment to road safety in your area and across the whole region.

Please note:

*If you know of other persons who have similar concerns about the same location, there is no need for them to submit a duplicate concern. **One is sufficient to instigate an investigation.** This is a technical process and a petition is not required. The submission of multiple concerns for the same location severely reduces the efficiency of the system and creates an unnecessary time delay for completion.*

The investigation of any complaint of this type is thorough and complex. Appropriate action will be taken where required and we will be in touch as soon as possible to advise you on the next stage.

For further details of the Speed Management Protocol and the potential outcomes of our investigations please use this URL:

<https://northyorkshire.police.uk/content/uploads/2016/02/Speed-management-protocol-1.pdf>

Concerns with a specific vehicle/ company vehicles: If you have concerns over a small number of vehicles, and have the details of them, whether it is one vehicle's registration plate or you have concerns with a particular company's vehicle, then this concern is not suitable to go through this process. Please contact '101' who will be able to assist you. You also need to do this if you have concerns over how cyclists use the roads.

Have you witnessed anti-social use of vehicles/ captured it on camera:

If you have witnessed or captured instances of anti-social use of vehicles or poor/ dangerous driving on a dashboard camera or other form of camera, then North Yorkshire Police have launched 'Operation Spartan' which aims to improve the attitudes of all who use our roads and increase the level of safety for all. Information on how to register and send these instances can be found here: <https://northyorkshire.police.uk/what-we-do/road-policing/operation-spartan/> or by emailing: OpSpartan@northyorkshire.pnn.police.uk
Covid-19

Kind regards
Jeff Pettit
Traffic Bureau Support Officer
Speed Concerns

9. Play Areas

a) To receive information from North Yorkshire Police in response to concerns about anti-social behaviour at Old Road play area and the request for more frequent patrols of the play areas

The Playground has had a considerable Police presence over the last few months, both in uniform and plain clothes. This has been down to one piece of intelligence re drug dealing in the park.

Unfortunately we haven't just haven't been there when the disorder has been occurring. I understand that the last incident 21/12/2020 probably involved a small group of females from the Pickering area.

Obviously we are now back in lockdown but we (both the response and safer neighbourhood team) will continue to actively patrol the area.

Sean Simpson, 5545

13. To receive information of the 2021 Census

Census 2021 will provide a snapshot of modern society
Households across the country will soon be asked to take part in Census 2021.

The census is a once-in-a-decade survey that gives us the most accurate estimate of all the people and households in England and Wales. It has been carried out every decade since 1801, with the exception of 1941.

It will be the first run predominantly online, with households receiving a letter with a unique access code, allowing them to complete the questionnaire on their computers, phones or tablets.

“A successful census will ensure everyone from local government to charities can put services and funding in the places where they are most needed,” Iain Bell, deputy national statistician at the Office for National Statistics, said.

“This could mean things like doctors’ surgeries, schools and new transport routes. That’s why it is so important everyone takes part and we have made it easier for people to do so online on any device, with help and paper questionnaires for those that need them.”

Census day will be on March 21, but households across the country will receive letters with online codes allowing them to take part from early March.

The census will include questions about your sex, age, work, health, education, household size and ethnicity. And, for the first time, there will be a question asking people whether they have served in the armed forces, as well as voluntary questions for those aged 16 and over on sexual orientation and gender identity.

Results will be available within 12 months, although personal records will be locked away for 100 years, kept safe for future generations.

Will I be able to get help filling in my census questionnaire?

There’ll be plenty of help available for Census 2021. We’ll be providing online help on our website, a dedicated contact centre and help to take part online at our Census Support Centres. We’ll also be offering support and guidance in a range of different languages and accessible formats.

For more information, visit census.gov.uk.
