Lead person responsible for the management of the scheme, with contact point :

Mr Nick Hall (Managing Director) 01757 668179 ext 151 or halln@clannet.co.uk

Examples of at least one previous scheme undertaken and references points:

Bedale Free wifi,, Northallerton Istreet Free wifi Settle Free wifi Leyburn Free wifi Easingwold Free wifi Caravan parks and village halls in North Yorkshire

Cost of provision of WiFi in Kirkbymoorside Town Centre	£1990	Install charges would be as follows: Planning, visits and configuration of equipment preparation etc £520, Main Router and Modem in an equipment cabinet for mounting in the Moorside Room £750 Receiver Radio ( <b>Radios</b> 3 Omni, 2 infrastructure ) brackets, wiring etc £320 Build labour on-site £400 = total £1990 plus VAT
Cost for provision of management of system for 2016 and subsequently per annum	£799.56	Monthly £36.63 plus Clannet hotspot service at £30/month = £66.63/month plus VAT
The supplier can provide a dynamic and editable front page for local use	<b>YES</b>	Front Landing page is agreed with client and its usual we are supplied with artwork
The scheme will include Web Filtering which will block inappropriate content and protocols filtering and block Malware and Viruses.	<b>YES</b>	All content delivered will be filtered using the well respected OPENDNS Family shield
The scheme is compliant with the Digital Economy Act 2012	<b>YES</b>	We are aware and compliant of all legislation covering Public Wi-Fi and we are registered with ICO ref.ZA146152 and all data is held in a secure Data centre in York compliant with data protection legislation.
The supplier has performed a site survey, and has identified the buildings which will be utilised for the provision of the scheme	<b>YES</b>	<ul style="list-style-type: none"> <li>Moorside Room @ 9 Church Street (bandwidth host with full 80/20Mbps FTTC available)</li> <li>Essential Health &amp; Beauty,</li> </ul>

<p>The supplier will undertake to put all planning approvals in place</p>	<p><b>Non Envisaged with care</b></p>	<p>We will need clarity on any host-listed building status and be sympathetic to its surrounding and match the owners requirements. See example before in Easingwold</p>
<p>The supplier has outlined all responsibilities before, during and after installation</p>	<p><b>YES</b></p>	<p>Kirkbymoorside Town Council will ensure host permissions are obtaining. That there is suitable location for controller equipment and agreements on cable runs and consistent 24/7/365 mains power Similarly at repeater host sites. In addition a reliable broadband supply preferably FTTC with a minimum 10Mbps capacity.</p> <p>Our responsibility is to install and ensure the system delivers the coverage plan and any installation is discussed with hosts along with physical appearance, cable runs and power. We are fully responsible for the function of the equipment for first year and maintain it and replace any faulty equipment. After 1 year then any repairs would be charged. To add artwork for</p>

		advertises as requested ensure customer portal is fully maintained assist users as and when required with login or use queries promptly
The supplier can provide free Internet access to end users which can be controlled/ limited by duration and/or bandwidth by Council	<b>YES</b>	End users register for service giving email and postcode or through social networking provider (Facebook etc). End user usage is controlled by both maximum speed and throughput in a 24 hour period. So for example at Northallerton its 1Mbps and 200MB. So You-Tube just works and the usage limits avoids abuse The usage counters are reset each night. This ensures that the service does not become the main internet connection for local freeloaders but is aimed firmly at its target audience of visitors and mobile device users.
The provided system will operate in the licence free bands	<b>YES</b>	5Ghz unlicensed Band B is utilised for the network infrastructure and 5GHz Band A and 2.4GHz for client access We propose to use Ubiquiti ac UniFi 3X3 at both 2.4 and 5Ghz and Loco 5M for infrastructure
The provided system will support the use of laptop computers, tablets and smart phones, regardless of the Operating System or Web Browser	<b>YES</b>	The landing page adapts automatically to the device it is serving. i.e. tablet/phone/laptop and browser type and screen size.
The provided system will allow seamless roaming across hotspots/ access points	<b>YES</b>	The system is a single network so as users move through and swap access points then there is no need to re-login thus seamless. We can continue this indoors for any retailer who wants with either their own receiving equipment outside relayed to a simple AP inside or we supply wireless routers which can tunnel(VPN) through the internet via the shop 's connections cost is approx £40/unit
The provided system will allow for a throttled Internet connection speeds for certain Wi-Fi networks	<b>YES</b>	See above on speed and daily throughput limits
The system will support a limit on the number of times the same end user can access the service and/or bar/access control device access to certain networks	<b>YES</b>	Please demonstrate how this will take place: See above on speed and daily usage limits
The system will provide facilities for allowing Councils to communicate with end users of the service.	<b>YES</b>	A Bulk email facility is provided on selected user criteria. i.e. most frequent users, locals, or visitor etc: A text service for retailers to use could be added ie text everyone in town at that moment with a special offer
The provider can supply usage reports which can be customised and scheduled daily, weekly and monthly	<b>YES</b>	Daily login number , usage, time online, new users, Weekly monthly include adverts served and click-throughs
