NEXT TIME suggestions...

- ◆ Open 10.00 – 2.00 as the morning seems to be the busiest time in town.
- ◆ Recruit more repairers. There was far too much for just two chaps to get through in the hardware and electrical department.
- ◆ Each visitor was given a numbered ticket. We thought it might be fun to have a raffle at the end of the year, to celebrate the success of the enterprise, and send the winner a surprise prize. Suggestions for prizes please.

Good Things

- ◆ The atmosphere of helpfulness, fun, co-operation and conviviality was a delight, as was the spontaneous applause when something, that had been mended, sprang into life. New friendships were made or consolidated. A great day.

Thanks and congratulations to all who made this happen!
