Ordinary Meeting of the Town Council 16<sup>th</sup> July 2018

**West End One Way Traffic System**

The residents of Tinley Garth note with interest the proposal to introduce a one way traffic system on West End and would like further information on this ill thought out proposal.

The immediate concern would be the significant increase in traffic onto Tinley Garth with the associated dangers to pedestrians and other road users.

We would be happy to submit our own petition objecting to this proposal if required but hope that common sense prevails and the issue is taken no further.

It might be of interest to the Town Council that a number of residents on West End are not only against this proposal but also the proposal to install unnecessary bollards along the pavements.

Could our objections be raised or noted at the next Town Council Meeting.

Kind Regards

Tinley Garth Resident
