

Agenda item 15. c) To note additional response to the consultation by members of the public

A comment on this matter, rather than a vote. From my desk, where I spend quite a lot of time, I have a clear view of the new(ish) basketball hoop. I've never seen anyone use it. My husband, who shares the desk, has seen it used twice. In contrast, a mothers and toddlers group is there in the play area once a week, rain or shine, using the space with no equipment at all other than a few mats which they bring with them.

Why not just leave this pleasant green space alone, instead of filling it with yet more largely unused clutter?

Subject: - Childrens Playing Field  
Regarding the article in the ~~Whorwell~~ stating  
our Town Clerk was offering to raise funds for  
some more equipment in future.  
How many people in R.M.S. realise how much  
effect our Town Clerk puts in to raising funds  
like was done <sup>this</sup> last year for the Basket Ball  
courts only to be let down through no  
fault of the Clerk by the contractors who  
did the job. The Hedges odd hay who nattered  
the idea do not use it as they expected  
now, <sup>the</sup> better for the money it cost.  
Now I understand it is to be made better for  
the young children & good.  
The HEDGES seems to be taking some effort  
to get out: - Wet weather, bird nesting, cars  
in the way.  
May I recommend that it be considered to  
cut the Hedges down and LAY it properly  
which could be done from the inside? ???  
This would be of an advantage in future  
years. Only trying to help.

RAY BOHARD S FOR THE RDIN 9 APPEND D.
