

Proposal for Priority Traffic System on West End

Following our recent discussion regarding West End herewith a Plan of a proposal for a Priority System.

It would involve the introduction of yellow lines and the loss of some of the available on-street parking. Areas have been created where two-way vehicle flows can be maintained (yellow lines both sides) but in the vicinity of the on-street parking, vehicles would need to give-way to on-coming traffic.

No doubt this will be a very contentious proposal so we would need to know there was sufficient support before we undertook any statutory consultation, which would have significant costs. You said that this may be something the Town Council could assist with similar to the bus stop consultation.
