

Manor Vale Management Committee
Kirkbymoorside Town Council
Information for meeting on 9 July 2018

12. To consider and agree the request by Kirkbymoorside Allotment Association to address the encroaching vegetation from Manor Vale on the eastern boundary

With regards to our conversation yesterday. There are a lot of brambles and nettles coming through and over the fence that divides the allotment and Manor Vale. Would it be possible for you to arrange your garden contractor to come and cut them down on the Manor Vale side. There are also some large branches that overhang the allotment. I would be happy to meet with your contractor, to see what can be done. Due to the drop/cliff edge I would suggest that your contractor access the area over the fence of the allotment and proceed with care. I only live a couple of minutes away so I can meet your contractor at a time to suit him, if he wants to give me a call on 0790 3632669.

Thank you
